

CHRISTIAN ESTRADA

Full-Stack Developer

Chihuahua, Mexico | +52 614 107 0683 | christianestrada1102.dev@gmail.com | codebynas.dev | github.com/christianestrada1102 | linkedin.com/in/christian-estrada-a59130386

PROFILE

Full-Stack Developer specialized in React, Next.js, Node.js, TypeScript, and Supabase, with hands-on experience shipping production SaaS products, AI-integrated platforms, and Web3 applications. Built and launched CotiEstima, an AI-powered SaaS for LATAM freelancers, from concept to production. Leads INNOVA, a 300+ member tech community in Chihuahua, and has shipped projects across international hackathons including NASA Space Apps, MIT-iCaTech, hack@latam, and ETHMexico Monterrey. Currently pursuing an Ingeniería en Desarrollo de Software (B.Eng. Software Development) at Universidad Tecnológica de Chihuahua.

EXPERIENCE

Freelance Full-Stack Developer

2025 – Present

- Designed, built, and shipped **CotiEstima**, a production SaaS integrating Claude AI, Stripe subscription billing, Supabase, and automated PDF generation, from concept to public launch.
- Delivered a full-stack laundry management platform for a private client, including a public landing page and an internal admin system for orders, clients, and services (NDA).
- Owned UI/UX end-to-end — wireframing in Figma, prototyping, and usability validation — before implementation in React, Next.js, and TypeScript.
- Worked across React, Next.js, Node.js, TypeScript, Vite, MySQL, and PostgreSQL to take projects from concept to deployed product.

Lead — INNOVA Tech Community

2025 – Present

- Lead a 300+ member technology community in Chihuahua, Mexico.
- Co-organized INNOVATHON 2026, a 42-hour hackathon for ~100 participants, and built the event's official website — innovathon.innovacuu.xyz (Next.js 15, GSAP, Lenis, Supabase) — with real-time registration and an admin-moderated live photo gallery.
- Led sponsor outreach, engaging partners including n8n, AWS User Group Chihuahua, and Faces.
- Designed and delivered 5+ workshops and meetups on practical software development topics.

SELECTED PROJECTS

CotiEstima — cotiestima.xyz

Production SaaS · June 2026 – Present

AI-powered proposal generator for LATAM freelancers. A Claude Haiku agent analyzes project briefs, fetches real market rate benchmarks, and generates proposals with PDF export, digital signatures, and Stripe subscription billing.

Next.js · TypeScript · Tailwind · Supabase · Prisma · Claude AI · Stripe · Make.com

Poised — poised.codebynas.dev

The Realtime Hackathon 2026

Real-time technical interview simulator with a full voice loop (STT → LLM → TTS). The AI interviewer ("Ana") asks technical questions live, automatically opens an in-session code editor when it detects coding questions, and delivers feedback at the end — configurable by seniority level, role, and duration (15–60 min), bilingual ES/EN. Solo-built end-to-end.

Next.js 16.3 · React 19 · TypeScript 5 · OpenRouter (Claude Haiku 4.5 + Whisper STT) · ElevenLabs · Neon + Drizzle ORM · Tailwind CSS v4 · Three.js · CodeMirror 6

HAVEN — haven-lat.codebynas.dev

hack@latam 2026

Collective defensive intelligence platform for real-time digital fraud detection in LATAM, using multi-modal AI (Mistral, Claude, Whisper, VirusTotal) and anonymized pattern-sharing via pgvector.

FastAPI · React · PostgreSQL · Mistral AI · Claude AI · Whisper · VirusTotal · Railway

INNOVATHON 2026 — innovathon.innovacuu.xyz

June 2026

Official site for a 42-hour hackathon with ~100 participants. Real-time registration, photo gallery with admin mode, GSAP animations, sponsor integrations.

Next.js 15 · TypeScript · Tailwind · GSAP · Lenis · Supabase

Laundry Management Platform

Private Client · 2026

Full-stack web platform for a laundry business. Landing page and admin system for orders, clients, and services. Code and demo private (NDA).

React 18 · Vite · Tailwind · DaisyUI · GSAP · React Router

Smart-contract solution cutting Arbitrum-to-Ethereum withdrawal time from 7 days to under 2 minutes.

Solidity · TypeScript · React · Next.js · Web3.js

SafeZone — safezone.codebynas.dev

MIT-iCaTech Hackathon 2025

Real-time SOS alert app connecting users with family and authorities. Built end-to-end in 48 hours.

React Native · Expo · Django · PostgreSQL · Google Maps API

Yuyin — github.com/christianestrada1102/SpaceYuyin

NASA Space Apps 2025

Educational platform to strengthen attention and language skills in children. Received "Galactic Problem Solver" certificate from NASA. Evolving into a startup.

Unity · C# · Figma

EDUCATION

Ingeniería en Desarrollo de Software (B.Eng. Software Development)

Universidad Tecnológica de Chihuahua — Chihuahua, Mexico *(In Progress)*

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), TypeScript, C#, React, Next.js, Node.js, React Native, Flutter

Backend & Data: FastAPI, Supabase, PostgreSQL, MySQL, Prisma

AI & Integrations: Claude AI, OpenRouter, Mistral AI, Whisper, VirusTotal API, ElevenLabs

Payments & Automation: Stripe, Make.com, Resend, Supabase Auth

Tools & Platforms: Git, GitHub, Figma, Vercel, Railway, Cursor, VS Code

Specialty Areas: Full-Stack Web Development, SaaS Product Development, UI/UX Design, Web3, AI Integration, Technical & Community Leadership

CERTIFICATIONS & RECOGNITION

- NASA Space Apps Challenge 2025 — "Galactic Problem Solver" certificate for Yuyin
- Orbit Entrepreneurship Program — Instituto de Emprendimiento del Tec de Monterrey · Sept 2025 – Present. Recognition for completing an MIT-inspired early-stage venture development program, defining the concept, value proposition, and validation strategy for Yuyin.
- MIT-iCaTech Program 2025 — 80-hour, 5-module STEAM certification covering critical thinking & creativity, effective communication, entrepreneurship, self-management, and team collaboration strategies.
- Full-Stack Certificate — CENALTEC / SEP · 126 hours · Aug 2026

LANGUAGES

Spanish (Native) · English (Intermediate)
